

# 2021 Kamaka Solid Koa Concert

(with Misi Pickup) & Hard Case

This Kamaka (HF-2) koa concert is one of the most loved ukuleles of all time. For many years Kamaka has been making great ukes and the concert is a popular size from them with a warm rich tone and classic sound of Hawaii. It is made from a high-grade, quarter-sawn, solid Big Island koa wood for the body, mahogany neck, and rosewood fingerboard and bridge. The 2021 Kamakas like this one sound better than ever!

This HF-2 is beautiful! It's light in weight with an ultra-comfortable neck and is setup for supreme playability. Herb Ohta Jr. shows it here with a low G setup. The low G string he is using is available on this page as the Uke Logic Smooth wound Low G string.
